Base

Click on the median value heading to link to the list of 2010 Base API similar schools. This list contains schools which were selected specifically for the reported school for the

2010 Base API Report.

Click on the column header to view notes.

In order to meet federal requirements of the Elementary and Secondary Education Act (ESEA), a 2011 Growth API is posted even if a school or LEA had no 2010 Base API or if a school had significant population changes from 2010 to 2011. However, the presentation of growth targets and actual growth would not be appropriate and, therefore, are omitted.

"N/A" means a number is not applicable or not available due to missing data.

"*" means this API is calculated for a small school, defined as having between 11 and 99 valid Standardized Testing and Reporting (STAR) Program test scores included in the API. The API is asterisked if the school was small in either 2010 or 2011. APIs based on small numbers of students are less reliable and, therefore, should be carefully interpreted.

"A" means the school or subgroups scored at or above the statewide performance target of 800 in 2010.

"B" means the school did not have a valid 2010 Base API and will not have any growth or target information.

"C" means the school had significant demographic changes and will not have any growth or target information.

"D" means this is either an LEA, or a special education school. Target information is not applicable to LEAs or special education schools.

Targets Met - In the "Met Growth Target" columns, the growth targets reflect state accountability requirements and do not match the federal Adequate Yearly Progress (AYP) requirements. The AYP requirement for the API is a 2011 Growth API of 710 or a one-point increase from the 2010 Base API to 2011 Growth API for a school or LEA.

Missing All Subgroup Data - All subgroup data are missing if the LEA informed the CDE of a potential data error in at least one race or ethnicity category.

Missing Special Population Subgroup Data - Socioeconomically Disadvantaged, English Learners, and Students with Disabilities groups with missing API data and a "No" under the "Met Subgroup Growth Target" column indicates that there was a decrease in the number of students in the group by at least 20 percent from the 2010 Base API to the 2011 Growth API, or the LEA reported a potential data error with one or more these student groups. For that reason API information for that student group is not reported. LEAs that make changes to their data through the testing contractor will have updated API reports released in February 2012.

2013 Statewide Rank: 4 2013 Similar Schools Rank: 8

Groups

	Number of Students Included in 2013 API	Numerically Significant in Both Years	2013 Growth	2012 Base	2012-13 Growth Target	2012-13 Growth	Met Growth Target
Schoolwide	119		732	723	5	9	Yes
Black or African American	1	No					
American Indian or Alaska Native	9	No					
Asian	0	No					
Filipino	0	No					
Hispanic or Latino	14	No	600	661			
Native Hawaiian or Pacific Islander	0	No					
White	95	Yes	765	721	5	44	Yes
Two or More Races	0	No		792			
Socioeconomically Disadvantaged	96	Yes	707	709	5	-2	No
English Learners	0	No					
Students with Disabilities	13	No	496	465			

In order to meet federal requirements of the Elementary and Secondary Education Act (ESEA), a 2013 Growth API is posted even if a school or LEA had no 2012 Base API or if a school had significant population changes from 2012 to 2013. However, the presentation of growth targets and actual growth would not be appropriate and, therefore, are omitted.

"N/A"	means a number is not applicable or not available due to missing data.
"**"	means this API is calculated for a small school, defined as having between 11 and 99 valid Standardized Testing and Reporting (STAR) Program test scores included in the API. The API is asterisked if the school was small in either 2012 or 2013. APIs based on small numbers of students are less reliable and, therefore, should be carefully interpreted.
"A"	means the school or Student Groups scored at or above the statewide performance target of 800 in the 2012 Base.
"B"	means the school did not have a valid 2012 Base API and will not have any growth or target information.
"C"	means the school had significant demographic changes and will not have any growth or target information.
"D"	means this is either an LEA, or a special education school. Target information is not applicable to LEAs or special education schools.
"I"	means the school had some invalid data at the student group level and the California Department of Education cannot calculate a valid rank for this school.

Missing Statewide and Similar Schools Ranks – LEAs, Alternative Schools Accountability Model (ASAM) schools, and special education schools do not receive statewide or similar schools ranks. Schools with less than 100 valid test scores do not receive a similar schools rank.

Targets Met - In the "Met Growth Target" columns, the growth targets reflect state accountability requirements and do not match the federal Adequate Yearly Progress (AYP) requirements. The AYP requirement for the API is a 2013 Growth API of 770 or a one-point increase from the 2012 Base API to 2013 Growth API for a school or LEA.

Two or More Races: – "Two or More Races" student group. Assessment results for students without valid Statewide Student Identifiers (SSIDs) were assigned to this student group.

Missing All Student Data – All subgroup data are missing if the LEA informed the CDE of a potential data error in at least one race or ethnicity category.

Missing Special Population Student Data – Socioeconomically Disadvantaged and English Learners students groups with missing API data and a "No" under the "Met Student Growth Target" column

indicates that there was a decrease in the number of students in the group by at least 20 percent from the 2012 Base API to the 2013 Growth API, or the LEA reported a potential data error with one or more these student groups. Demographic data corrections made through the California Longitudinal Pupil Achievement Data System (CALPADS) or assessment-related data corrections (such as statewide student identifiers or fields specific to the testing administration process) made through the testing contractor will be reflected in the updated API reports released in March 2014.

Students with Disabilities	15	580	15	458	13	496	511	512

Blank cell – This indicates that the school or student group did not have a valid 2011, 2012, and/or 2013 Growth API. Therefore, a 3-Year average could not be calculated.

*Assembly Bill (AB) 484 amended California Education Code sections 52052(e)(2)(F) and 52052(e)(4) to allow schools that do not have an API calculated in 2013–14 and 2014–15 to use one of the following criteria to meet legislative and/or programmatic requirements:

- The most recent API calculation;
- An average of the three most recent annual API calculations; or
- Alternative measures that show increases in pupil academic achievement for all groups of pupils schoolwide and among significant groups.

The decision to use one of the above criteria may be made on a program by program basis and is a local decision.

Formula to Calculate Average APIs:

A 3-Year Average API Report was produced if the following criteria were met:

1. The school had a valid API (i.e., the school received an API report) in each of the last three consecutive years;

2. The school had 11 or more valid scores in each of the last three consecutive years. (A valid score is when a student's assessment results are included in the calculation of the API.); and,
3. If the above criteria are met, the 3-Year Average API Report will also include any student group(s) that had 11 or more valid scores in each of the last three consecutive years.

Non-Weighted Average: The formula to calculate the non-weighted average is:

$$\frac{2011 \text{ API} + 2012 \text{ API} + 2013 \text{ API}}{3}$$

Weighted Average: The formula to calculate the weighted average is:

$$\frac{(2011 \text{ API} \times 2011 \text{ Valid Scores}) + (2012 \text{ API} \times 2012 \text{ Valid Scores}) + (2013 \text{ API} \times 2013 \text{ Valid Scores})}{2011 \text{ Valid Scores} + 2012 \text{ Valid Scores} + 2013 \text{ Valid Scores}}$$

Further details about the calculation of the averages and the 3-Year Average API Report can be found in the "Status of the Academic Performance Index and the 3-Year Average Information Guide". This guide can be accessed by selecting the "3-Year Average Guide" button within the "API Links" section above.
