

Public Health Update

Coronavirus

PCS Families,

Please see the attached information update from Public Health regarding coronavirus status in Plumas County.

The recommendations from Public Health and the CDC remain the same from earlier this week:

- If your child is sick, keep them home
- Wash hands often with soap and water or use alcohol based hand sanitizer
- Avoid touching eyes, nose and mouth with unwashed hands
- Clean and disinfect regularly touched items often
- Avoid close contact with people that are sick

Additionally, PCS would like to remind families that if you would like to keep your child home from regularly offered classes for the short term, you are welcome to do so. Contact your teacher or Site Lead for independent study work if you would like to do this.

We will continue to keep you up to date with any new information we receive.
