

## Teacher connection

Dear PCS families and staff,

One more thing for today...

I didn't emphasize in my last email the importance of keeping up with school work and staying connected with teachers and PCS, but I want to do so now. This week has been a huge transition and I know you may have fallen behind for a moment. Be gentle and kind to yourself and jump right back in!

Don't let your teachers get lonely! They have created a lot of support for you to access, so please take advantage. Reach out. Ask questions. Get support. And keep up with the academics. We're all here to help you as much as possible, and keeping everything exactly on track with school will help everyone get through this beautifully.

More soon!

Warmly,

Becky
